⊕ Bridle

end the AKG Gallery Project has just been launched and has already met with great enthusiasm.

The Delta Squares Kite

Copyright Charlie Charlton 1995

This is a large and serious kite it measures slightly larger than 12 feet tall however it has a very light pull and can be flown quite nicely on 100lb line

In addition to the obvious instructions on the plan please note
All spars except the bottom dihedral set piece should be 12mm dowel The spine must be made of two pieces joined with a ferrule.

The bottom pair of pieces which are set in the dihedral should be 8mm dowel the line marked 'K' has the dihedral at the centre, and should be tied to the sail with a small tie.

The spine should be attached to the sail at both bridle points

Fit two pockets to take the spine.

The cross spars in the lower sail, also require pockets.

All fabric grain should run parallel to the outside edges.

Remember this is basically just two squares with a little overlap

The bridle should be about 6.5 meters in length. find the towing point by trial and error. (Notice this kite will fly well within a huge range of bridle adjustments)

If you need any further help feel free to contact me

PINS

I still have a few AKG pins left.

If you want one send me £1.50 plus 50p to cover postage.

Feedback

Firstly I would like to thank all those people who have contributed positively to the group, especially, My wife Anna without whose support the AKG would never have gotten off the ground, and despite her serious illness has always been at my side.

Also my thanks go to Gill and Jon Bloom for their continuing support and space in the pages of the Kiteflier. as well as all those who have helped at festivals either as organisers, kite lenders/ exhibitors, and judges.

I hope that I am doing an OK job here but if you don't think so and you can think of some positive contribution you can and want to make then let me know either with a letter an E-Mail or a phone call.

Contributions

Please send in your reports, photos, floppy disks, news items, information regarding exhibitions, techniques, anecdotes, plans, designs, cartoons, Gallery project kites, or anything else you can think of.
